

I am strongly opposed to weakening Indiana's Law on Telephone Privacy!! In order to strengthen family relationships, quality time together as a family is essential. When this precious time is constantly interrupted with sales calls (often during the dinner hours), family bonding is hindered. Please do not allow a "business relationship exemption" to Indiana's Telephone Privacy law. These businesses can advertise in their mail correspondence that they already send their customers. Indiana residents are counting on you to preserve their privacy!! Thank you very much!!
Sincerely,

Lauren Kovac
